Summary of the implementation of scientific research results

"Ensuring regional economic development and cooperation in the context of local self-government reform"

(No. 0119U002419, performance period: 01.07.2019–31.12.2021)

1. Directorate for the Development of Local Self-Government, Territorial Organization of Power and Administrative-Territorial Structure of the Ministry of Development of Communities and Territories of Ukraine (letter No. 7/13.4/7691-21 dated 05.27.2021): the scientific report *“Mechanisms for Implementing Regional Innovation Cooperation Policy Based on Stimulating Demand and Supply of Innovations”* was positively assessed, in particular, its high relevance and practical value were noted, the materials would be used in the practical work of the Directorate while developing relevant legislative acts.

2. Directorate for the Development of Local Self-Government, Territorial Organization of Power and Administrative-Territorial Structure of the Ministry of Development of Communities and Territories of Ukraine (letter No. 8/34.4/5661-20 dated 08.04.2020): the scientific reports *“Stimulating Economic Growth and Cooperation Based on the Implementation of the Latest International Regional Innovation Policy”* and *“Proposals for the Implementation of the Innovative Vector of Economic Development and Cooperation of Territorial and Economic Systems of Ukraine”* were positively assessed, and the use of recommendations in the work of the Ministry in the process of reforming local self-government and territorial organization of power was noted.

3. The Department of Economic Policy and Strategic Planning of the Odessa Regional State Administration (letter No. 03.2-06/2113 dated 27.10.2020): positively assessed and supported the regional development project *“Ensuring Economic Security of the Ukrainian Black Sea Region and Attracting Investments”*, noted its relevance and practical interest for the Department, as it could be used in the development of the economic policy of the region.

4. The Department for Decentralization and Community Development of the Kherson Regional State Administration (letter No. 875-22-01-12/0/21/344-40-213 dated 02.07.2021): positively assessed and adopted the scientific report *“Mechanisms for implementing regional innovation cooperation policy based on stimulating demand and supply of innovations”*.

5. Main Department of Statistics in Odessa region (letter No. 09-11/722-20 dated 16.09.2020): the scientific report *“Scientific Approaches to the Development and Assessment of the Level of Sustainable Development of Territorial and Production Formations”* was positively assessed, in particular, it was noted that the considered issues of increasing the role and potential of territorial and production formations in ensuring the sustainable development of united territorial communities were modern and relevant, had significant theoretical and practical significance; proposals for the development of territorial and production formations would be taken into account by the Main Department of Statistics in Odessa region when

implementing measures aimed at improving and developing state statistical observations when planning work and preparing proposals for the State Statistics Service for the Plan of State Statistical Observations, and working with respondents and users.

6. Vyzyr Village Council of Lymansky District, Odessa Region (letter No. 02-14/2186 dated 16.12.2020): positively assessed the scientific report “*Scientific Approaches to the Development and Assessment of the Level of Sustainable Development of Territorial and Production Formations*”, in particular, it was noted that the work was particularly relevant because it was dedicated to increasing the role and potential of territorial and production formations in ensuring the sustainable development of UTCs (subregions), which will no longer function as municipal structures, but will unite the interests of the territory and business structures, ensuring a high quality of life for the population.

7. Podilskyi City Council of Podilskyi District, Odessa Region (letter No. 9/402 dated 19.10.2021): the scientific report “*Proposals and Recommendations for Ensuring Industrialization and Effective Use of Community Resources, Using the Example of Podilskyi District, Odessa Region*” was positively assessed, in particular, the relevance of the study for the economic systems of both the newly created Podilskyi District of Odessa Region and the Podilskyi Urban Territorial Community was noted, the conducted study met the strategic goals and objectives of the socio-economic development of Podilskyi District, the proposal to locate new enterprises or expand the activities of existing industrial facilities for processing sunflower and wheat raw materials in the city of Podilsk was economically justified, the prerequisites for the creation of the Industrial Park "Podilsk" were noted, practical measures for the most effective use of promising tools for economic cooperation in order to increase the competitiveness of the entire Podilsk district were proposed, and minor comments and suggestions were also made regarding the content of the report.
