**Summary of the implementation of scientific research results
“Formation and use of natural resource assets of the recreational and
tourist sphere”**

(№0120U100159, performance period: 01.01.2020 – 31.12.2021)

Based on the results of applied developments, positive feedback and implementation information were received, in particular:

1. Ministry of Environmental Protection and Natural Resources of Ukraine (outgoing letter No. 8/4-50/1180-20 dated 23.07.2020) positively assessed the scientific report «*Theoretical Approaches to the Formation and Use of Natural Resource Assets in the Recreational and Tourist Sphere*». It was noted that the Ministry is grateful to the Institute staff for the provisions that will contribute to the effective involvement of natural resource assets in economic, in particular recreational and tourist activities.

2. The Department of Ecology and Natural Resources of the Odessa Regional State Administration (outgoing letter No. 5180/06-17/5008 dated 07.12.2020) positively assessed the scientific report «*Theoretical Approaches to the Formation and Use of Natural Resource Assets in the Recreational and Tourist Sphere*». It was noted that the materials are appropriate and relevant within the framework of the justification and implementation of the regional environmental protection program and the action plan for rational nature management in the Odessa region, namely: determining the economic content of natural resource assets of the recreational and tourist sector based on the analysis of the factors of their formation as the basis for the sustainable development of the region; substantiating the conceptual relationship between natural resource and other assets of the recreational and tourist sector, taking into account such production guidelines as safety, quality and efficiency.
